4. App Description

GEBC(Green Energy Building Control) is a tool for commissioning Bluetooth Mesh lighting networks in commercial spaces.

With the GEBC APP, you can
-manage bluetooth self-organizing network devices
-automatically search for wireless devices, name and group lights
-set up scenes
-set the timer to handle tasks automatically
-understand the electricity consumption and energy saving information of each fixture with sensors
-share control permissions with other phones

For more information about GEBC and our commissioning process, visit https://homewellinc.net
